Institutional Distinctiveness

The institution is located in an urban location and along with the students of the city, it also attracts students from the surrounding rural areas of different social and financial background. A big part of the student demography consists of rural background which has suffered due to lack of learning opportunities in their immediate living area and conditions. The institution has been working down the years as a centre of knowledge and opportunities notonly for the urban students but also for the rural population, many of whom are first generation college students in their families. The institution has the opportunity to act as a source of wisdom and guidance to a huge number of underprivileged students, a big part of which are girl students. It is the vision of the college to expand the ambit of knowledge to different sections of the society and by opening its doors to students of the rural demography it is serving an important role in the development of surrounding villages and communities in addition to the urban students.
